Application by Transferring International Students

Student Application and Selection Procedure (International Students)

Prospective international students who are currently enrolled with another registered provider can apply for entry to a course at the Institute. However, they must have completed six months of their principal course of study with their previous registered provider at the time of enrolment. The Institute will not knowingly enroll a student who has not completed this requirement. This provision is in accordance with *ESOS Act 2000* and National Code.

International students who seek to transfer from another registered provider but who not completed six months of their principal course of study, will only be considered when:

- The original registered provider has ceased to be registered, or the course in which the student is enrolled has ceased to be registered
- The original registered provider has indicated on PRISMS that it has released the student
- The original registered provider has had a sanction imposed on its registration by the Australian Government or state or territory government that prevents the student from continuing his or her principal course
- Any government sponsor of the student considers the change to be in the student's best interest and has provided written support for that change.

Application Process for Transferring International Students

- International students transferring from another registered provider will follow the same application and selection procedure as prospective offshore international students.
- If the applicant accepts an offer and does not enroll, DIBP shall be notified and the CoE cancelled.
