4. Definitions

Nationally Recognised Qualifications: In line with national requirements for consistency in the use of qualification titles, the name of the qualification and its title must confirm to the AQF nomenclature exactly as recorded on the national register www.training.gov.au (TGA). The TGA code number is to be used with the title of the qualification and the use of the Nationally Recognised Training (NRT) logo. A Statement of Attainment must include a list of the competencies completed and, if applicable, the AQF qualification partially completed, with the title of the training package or accredited course from which these were drawn. The national code for each competency must also be used. RGIT's provider number from the National Register must be included on all certificates and statements of attainment issued by the Institute. 6. Procedure

- (1) RGIT will issue certificates or SOAs for each Qualification completed by a student.
- (2) The certificates or SOAs will only be issued once the student's results have been ratified and entered into the student management system (i.e. RTO Manager) by the VET coordinator.

8. Revocation of Certificates

RGIT may require the graduate to return the certificates, record of results or SOA in the following circumstances:

- (1) In cases where an alleged fraud or dishonesty has been substantiated, RGIT may revoke the qualification and require the return of documentation.
- (2) The certification or the SOA (whichever applies) if evident to the satisfaction of RGIT that the qualification was improperly obtained.
- (3) Due to remedial action been put in place, where it has been identified that Gap training is required to be conducted, the graduate will be contacted and called in to complete the gap training and when that is completed reissuance of the certification will be done after the graduate returns the original documentation.
- (4) When a request for replacement of original certificate, record of results or SOA is submitted due to damage, the graduate is required to return the original documentation prior to the replacement documentation being issued.
